Mobile Developer - React Native, TypeScript, Redux, Mobile UI/UX

Qualifications

- A degree in **Software Engineering, Computer Science, or Information Technology**.
- Strong proficiency in **React Native** and **JavaScript (ES6/ESNext)**.
- Experience working with **TypeScript** and **state management libraries** such as **Redux, Zustand, or Context API**.
- Hands-on experience in **building and optimizing mobile UI/UX for iOS and Android**.
- Understanding of **RESTful APIs, GraphQL, and mobile networking**.
- Knowledge of **modern mobile build tools** such as Fastlane, Gradle, CocoaPods.
- Familiarity with **CSS-in-JS solutions** such as Styled Components or Emotion.
- Proficiency in **Git version control**, working with repositories on GitHub, GitLab, or Bitbucket.
- Experience working with **Firebase, push notifications, and in-app messaging**.
- Knowledge of **native modules and bridging techniques** to integrate native code with React Native.
- Ability to **collaborate in a distributed team setup** with global teams.
- Strong understanding of **performance tuning, memory management, and app optimization**.

Required Skills

- **3+ years of experience** in mobile development using **React Native**.
- Strong proficiency in **JavaScript (ES6/ESNext) and TypeScript**.
- Hands-on experience with **React Native navigation libraries** such as React Navigation.
- Experience with **state management libraries** such as **Redux, Recoil, or Zustand**.
- Understanding of **native mobile development (Swift, Objective-C for iOS, Kotlin, Java for Android)**.
- Proficiency in **RESTful API integration** using Axios, Fetch, or GraphQL queries.
- Knowledge of **performance optimization techniques** such as lazy loading, FlatList optimization, and useMemo.
- Experience with **unit testing and integration testing** using Jest, Detox, or Appium.
- Familiarity with **authentication mechanisms**, including OAuth, JWT, and Firebase Authentication.
- Experience working with **mobile UI/UX tools** like Figma, Adobe XD, or Sketch.
- Understanding of **security best practices** for mobile applications, including secure storage, encryption, and token-based authentication.
- Ability to write **clean, maintainable, and well-documented code**.
- Experience with **CI/CD pipelines for mobile applications** using Fastlane, GitHub Actions, or Bitrise.
- Familiarity with **Google Play Store and Apple App Store deployment processes**.
- Strong knowledge of **push notification services** such as Firebase Cloud Messaging (FCM) and Apple Push Notification Service (APNs).

Experience

- **3+ years of experience in mobile development using React Native**.
- Experience in **building and optimizing cross-platform applications** for iOS and Android.
- Hands-on experience with **responsive and adaptive UI design** for mobile applications.

- Strong experience in **integrating third-party SDKs, APIs, and services**.
- Experience with **cloud-based mobile app deployment** such as AWS Amplify, Firebase, or Microsoft App Center.
- Understanding of **offline data management** using SQLite, AsyncStorage, or Realm.
- Experience working with **real-time data** using WebSockets or Firebase Firestore.
- Proficiency in **debugging, profiling, and optimizing mobile performance** using React Native Debugger, Flipper, and Logcat.
- Experience in **unit testing React Native components** using Jest and Detox.

Duties & Responsibilities

- **Develop and maintain cross-platform mobile applications** using **React Native and TypeScript**.
- **Build and optimize UI components** for performance, accessibility, and seamless user experience.
- **Integrate RESTful APIs and GraphQL endpoints** with mobile applications.
- **Implement and maintain mobile authentication workflows** (OAuth, JWT, social logins).
- **Optimize app performance** by reducing bundle size, optimizing images, and implementing caching strategies.
- **Ensure smooth animations and transitions** using React Native Reanimated and Gesture Handler.
- **Handle device-specific functionalities**, including push notifications, deep linking, and biometric authentication.
- **Write clean, scalable, and reusable code** following industry best practices.
- **Participate in Agile development cycles**, including sprint planning, daily stand-ups, and retrospectives.
- **Perform unit testing and UI testing** to ensure application stability.
- **Monitor app analytics and crash reports** using Firebase Analytics, Sentry, or New Relic.
- **Collaborate with designers and backend developers** to create seamless mobile experiences.
- **Deploy and manage releases** to the App Store and Google Play Store, ensuring compliance with guidelines.
- **Stay updated with the latest trends and advancements** in mobile development and React Native.
- **Mentor junior developers** and conduct peer code reviews to ensure code quality.

Job Description

We are seeking a **highly skilled Mobile Developer (React Native)** to join our team and contribute to the development of **modern, scalable, and high-performance mobile applications**.

As a **React Native Developer**, you will work closely with **product managers, designers, and backend engineers** to develop cross-platform applications that provide a seamless user experience on **iOS and Android**.

This role requires **expertise in React Native, TypeScript, JavaScript, mobile UI/UX design, and API integration**. You will be responsible for **building intuitive mobile interfaces, optimizing performance, and ensuring accessibility**.

You will also play a key role in **architectural decisions, feature implementations, and mobile optimizations**, ensuring that our applications are **fast, reliable, and user-friendly**.

If you have a **passion for mobile development, a deep understanding of React Native, and a desire to create cutting-edge mobile experiences**, we encourage you to **apply today!**

Why Join Us?

☑ **Work on cutting-edge mobile technologies** (React Native, TypeScript, Firebase, GraphQL).
☑ **Collaborate with an innovative and dynamic team** of engineers, designers, and product managers.
☑ **Competitive salary and benefits** package.
☑ **Opportunities for career growth and skill development**.
☑ **Flexible work environment**, including remote work options.
☑ **Engage in Agile development practices** with sprint-based planning.
☑ **Get exposure to modern CI/CD pipelines and cloud deployments**.
☑ **Develop scalable, high-performance mobile applications** used by thousands of users.
